language access:

Improving Health and Patient Experience

Seeking proposals that reflect the best thinking in the field, informed by theory, research, and practice, and cognizant of issues in support of the conference theme.

The committee invites proposals that:

- Present Best Practices and collaborative efforts to improved health outcomes
- Provide advanced content for professional interpreters
- Increase researcher and community health worker knowledge regarding culturally and linguistically appropriate care, health-related research and evidence-based interventions
- Stimulate and provoke discussion around Unconscious (Implicit) Bias and Health Disparities
- Your presentation focus, however, is not limited to these examples. Please ensure your content focus relates to the conference theme.
